COATS CONNECT HOOK AND LOOP FASTENERS

As the world's leading industrial thread and textile crafts business, Coats is at the forefront of pioneering innovation. Many of our product developments in threads, zips and colour technology, as well as innovations in manufacturing processes, have become global industry standards.

We are proud to introduce Coats Connect hook and loop fasteners to add to our range of high quality trim products. Coats Connect has been developed in partnership with leading suppliers and textiles manufacturers and for use in a multitude of applications. With our research and development capabilities we are able to provide optimum and customised solutions that meet our customer's product and process requirements.

MAIN USES

- Apparel
- Footwear
- Protective clothing
- Bags and travel goods
- Sports and outdoor equipment
- Mattress and bedding
- Home textiles and interiors
- Medical
- Packaging
- Furniture and upholstery, and many more

In addition to the many widths and shades available in our standard Connect offer, we have a portfolio of products such as adhesive, flame retardant and others fasteners to meet the particular and specialised needs of our customers.

HOOK AND LOOP FASTENERS

Standard

- 100% polyamide woven with latex free polyurethane coating
- Assured for frequent opening and closing up to 10,000 times
- Excellent closure and horizontal strength
- Maximum durability
- Washable and dry cleanable
- Wide range of widths and shades
- STANDARD 100 by OEKO-TEX®, Class I for Standard

Adhesive

- 100% polyamide woven with adhesive properties (rubber based)
- Suitable for a broad range of industrial applications
- High performance pressure sensitive adhesive
- Good holding strength
- Excellent closure and horizontal strength
- Maximum durability
- STANDARD 100 by OEKO-TEX®, Class I

Flame Retardant

- 100% polyamide with flame retardant properties
- Suitable for a variety of industrial applications where flame protection is required
- Meets the requirements of key flammability norms
- Tested according to EN ISO 15025 (limited flame spread) and ISO 17493 (heat resistance)
- STANDARD 100 by OEKO-TEX®, Class I

APPLICATION GUIDE
